SOFT SKILLS

- Strong analytical and problem-solving skills, with attention to detail.
- Excellent communication and interpersonal skills, ensuring clear and effective client interactions.
- Ability to manage multiple projects simultaneously and deliver high-quality results under tight deadlines.
- Adaptability and eagerness to learn new

PROFILE

Experienced React.js, and Next.js developer with a strong background in building modern web applications and dynamic user interfaces. Proficient in utilizing component-based architecture, state management solutions, and API integration to enhance performance and user experience. Skilled in creating responsive designs and optimizing applications for speed and scalability. Demonstrated ability to work collaboratively in Agile environments, problem-solve efficiently, and exceed project goals. Passionate about staying up-to-date with the latest industry trends and technologies to deliver high-quality solutions.

EXPERIENCE

SkillSwap (contract)

April 2024 – June 2024

As a Frontend Developer at SkillSwap, a startup leveraging blockchain technology for skill exchange, I was instrumental in designing and implementing the platform's user interface. Using a modern tech stack including Next.js, TypeScript, and Tailwind CSS, I contributed to building a seamless and interactive experience for our users.

Key Responsibilities:

- Developed and maintained responsive and dynamic user interfaces using Next.js, ensuring optimal performance and SEO-friendly pages.
- Utilized TypeScript to enhance code quality and maintainability, enabling robust type checking and reducing runtime errors.
- Styled components and created a cohesive design system with Tailwind CSS, ensuring a consistent and appealing look and feel across the platform.
- Collaborated with backend developers to integrate blockchain features, facilitating secure and transparent skill exchanges between users.
- Worked closely with the UX/UI design team to implement design mockups and user feedback, continuously improving the user experience.

technologies and methodologies to stay current with industry trends.

- Participated in agile development processes, contributing to sprint planning, code reviews, and daily stand-ups to ensure timely delivery of features.
- Troubleshoot and resolved frontend issues, optimizing for performance, scalability, and cross-browser compatibility

Freelancer

September 2022 – Present

As a Freelance Frontend Developer, I specialize in creating dynamic and responsive web applications for various clients. Leveraging a diverse skill set that includes HTML, CSS, JavaScript, Next.js, React.js, TypeScript, and Tailwind CSS, I deliver tailored solutions that meet client requirements and exceed expectations.
